Homecoming Schedule

Friday, October 3

- 8:30 p.m. Pep Rally and Queen Coronation (Fieldhouse)
- 9:15 p.m. Bonfire (west of the football field)
- 9:30 p.m. Bonfire Dance (Hulman Union)

Saturday, October 4

- 9:00 a.m. Champagne Brunch Buffet (Hulman Union)
- 9:30 a.m. Tours of the Renovation in Progress to noon Hadley Hall (lower level)
- 11:00 a.m. Annual Alumni Meeting (Moench Hall GM Room)
- Ladies' Coffee (Lobby Hulman Union)
- Soccer - Rose-Hulman vs. Millikin College
- 1:30 p.m. Rose-Hulman vs. Olivet (Phil Brown Field)

After Game Happy Hour - Wabash Valley RoseTech Club (Fieldhouse)

- 6:00 p.m. Homecoming Dinner (Hulman Union)
- 8:00 p.m. Reminiscing with classmates and friends
- 11:00 p.m. Sing-along and dancing music by Nancee South
- 8:30 p.m. Concert - Fieldhouse

NEWS BRIEFS

Comedy showcased at Rose homecoming concert

Two comedy acts, Taylor Mason and Chicago City Limits, will be featured Oct. 4 during the annual Homecoming concert at Rose-Hulman Institute of Technology.

Both performances will be staged in a relaxed cabaret atmosphere in Shook Memorial Fieldhouse beginning at 8:30 p.m. The show is sponsored by the Rose-Hulman Student Activities Board.

Mason, who began his career with the nationally-known Second City comedy troupe, has been a headliner at the nation's best-known comedy clubs including the Comedy Store in Los Angeles, the Improv in New York City and Zanies in Chicago. His talent at combining ventriloquism and comedy has resulted in appearances on national television during the Robert Klein Comedy Special on the USA Cable Network and the David Susskind Show which is seen on the Public Broadcasting System.

In addition, he has performed live in concert with

such stars as Neil Sedaka, Tina Turner and Gordon Lightfoot. A popular act on the collegiate circuit, Mason has performed on 100 campuses in 28 states.

Appearing with Mason will be Chicago City Limits, a seven member troupe that has performed from coast to coast with their own style that blends audience participation and comedy improvisation. The group is currently the longest running comedy show in New York, performing for the past five years at Manhattan's E comedy club. They have also performed at other noted comedy clubs across the country including Dangerfields, the Improv, and Catch a Rising Star.

Chicago City Limits will soon be seen in their own Home Box office cable television special.

Tickets are now on sale at the Hulman Union box office on the Rose-Hulman campus from 9 a.m. until 7 p.m. Prices are \$5 for unreserved and \$6 for reserved seats.

Trains subject of art exhibit

The days when the train was the king of transportation is the subject of an exhibit of illustrations by Hoosier artist Frank Viator that is on display until Oct. 15 in Moench Hall at Rose-Hulman Institute of Technology.

Viator, who for more than 40 years has operated his own commercial art studio in Indianapolis, says he features locomotives and old train depots because people enjoy reliving a part of the Midwest's past.

"Illustrating a steam loco-

motive is a challenge for an illustrator because of the detail that is involved. Perhaps that is one reason why very few artists use trains as their subject," Viator noted.

Viator has had his works exhibited at the Hoosier Salon, the Indiana Artists' Club, the 500 Festival of the Arts and at the Brown County Art Gallery.

The exhibit can be viewed Monday through Friday from 8 a.m. until 5 p.m. on the second floor of Moench Hall.

Alumni honored at homecoming

Louis Heck of West Terre Haute is one of four Rose-Hulman Institute of Technology alumni who will receive the college's Honor Alumni Award during Homecoming activities Oct. 4.

Others selected for the honor are William Kniptash, Indianapolis; and Jack Schreiner, Vienna, Va. The award will be presented posthumously to the late Henry Nacrede of Indianapolis.

The award is the highest honor that is bestowed by the Rose-Hulman Alumni Association. It recognizes service to Rose-Hulman and contributions that the alumnus has made to the engineering profession.

The awards will be presented during an alumni brunch that begins at 9 a.m. in the Hulman Union.

Heck, a 1935 Rose graduate, worked on major interstate highway and state road projects during his career with the Indiana State Highway Commission. In addition, he has served in several volunteer posts for the college's alumni association including class agent, reunion chairman and vice president of the Wabash Valley RoseTech Club.

During his career with the state highway agency, Heck helped engineer several major

highway improvements in Indiana including the construction of Interstates 65, 70 and 74. Prior to his work on highway projects, Heck was a mining engineer for a local coal company.

A former president of the Rose-Hulman Alumni Association, Kniptash graduated from Rose in 1943 and held several management positions with American Precast Concrete Co. and Ready Mixed Concrete Co., both located in Indianapolis. He is now a representative with the Indianapolis-based Leslie Brothers Co.

During his 38-year career with Ready Mixed Concrete, Kniptash recommended the creation of American Precast Concrete Co. which is now the largest producer of structural and architectural precast in the Midwest.

As an alumni volunteer, Kniptash has been president of the Indianapolis RoseTech Club, a class agent and reunion chairman.

Schreiner, a 1961 Rose graduate, is a software technical manager for the Federal System Division of Honeywell Inc. He has also served as president of the Washington and Baltimore RoseTech Club and has been a class agent for the past 18 years.

In his post with Honeywell, he has worked on numerous multi-

million dollar information system projects for various government agencies including the U.S. Army and the Internal Revenue Service. Currently, Schreiner is working on a \$600 million computer-based project that will provide new data processing support for U.S. Navy land and sea operations.

Nacrede, who died in 1978, was the owner and founder of Nacrede Engineering Co., Indianapolis, a supplier of power plant and water purification equipment. A 1929 Rose graduate, he assisted the college's alumni association in various fund-raising and special event projects while serving as a class agent for 12 years.

His award will be accepted by his wife, Marguerite, and son David, a 1965 Rose graduate.

Homecoming activities at Rose-Hulman begin Oct. 3 with reunion dinners for graduates from the classes of 1932 and 1936. Eleven other reunions are planned for the following night, along with the bonfire and queen coronation. A full schedule of activities including the annual alumni meeting, football game against Olivet College of Michigan, and Homecoming dinner and concert are planned Oct. 4.

Alumni return for homecoming weekend

Whether it is the return of an alumnus from the class of 1910 or more than 75 alumni who graduated 50 or more years ago,

Among the graduates attending the 50-Plus Club activities will be Ben Wilson, class of 1910. The 97-year-old Wilson of Madison, Wisc. will be the oldest returning alumnus.

The schedule includes reunions, a queen coronation, a spectacular bonfire, pep rally, presentation of alumni awards, homecoming concert, dinners and football game.

The activity begins Oct. 2 (Thursday) with reunion dinners for the classes of 1932 and 1936. Eleven other reunions are planned the following evening including the 50-Plus Club dinner at 6 p.m. in the Hulman Union. The dinner will include the induction of the class of 1936 into

the Club which consists of alumni who graduated 50 or more years ago.

Among the graduates attending the 50-Plus Club activities will be Ben Wilson, class of 1910. The 97-year-old Wilson of Madison, Wisc. will be the oldest returning alumnus.

The 1986 Homecoming Queen will be crowned during a pep rally that begins at 8:30 p.m. in Shook Fieldhouse. Hours and hours of hard work by Rose freshmen will go up in a spectacular bonfire that will be ignited immediately following the queen coronation.

A full schedule is planned Oct. 4 (Saturday) beginning with the presentation of the Honor Alumni Awards during an alumni buf-

fet at 9 a.m. in the Hulman Union. Among the four men who will receive the highest honor that is presented by the Rose-Hulman Alumni Association is Louis Heck of West Terre Haute. The annual alumni business meeting is scheduled at 11 a.m. in the GM Room of Moench Hall and at 1:30 p.m. everyone's attention will move to Phil Brown Field where the Engineer football team will take on Olivet College.

The annual homecoming dinner is scheduled at 6 p.m. in the Hulman Union and the three-day homecoming schedule concludes with performances by two comedy acts, Taylor Mason and Chicago City Limits at 8:30 p.m. in Shook Fieldhouse.

Alumni may remember the fun and excitement of removing water soaked railroad ties from the bottom of Lost Creek. Freshmen must remove the ties thrown into the creek by sophomores in order to build the bonfire.

EDITORIAL

Monday night, while coming in to work on the Thorn, I happened to stop by my mailbox to clear out the junk mail that had accumulated over the afternoon. One piece caught my eye, since the *Rose Thorn* was prominently mentioned. Below is the excerpt in which this publication was mentioned.

"The following paragraph was submitted through the proper channels by the deadline to appear in the September 26th issue of the *Rose Thorn*, but it was lost after being submitted. In order to be fair to Rochelle, and to give you the opportunity to learn more about her, since she is in the Homecoming Court and could be our 1986 Homecoming Queen, we, the men of Delta Sigma Phi, have taken it upon ourselves to distribute this information about her." The letter then proceeded with a paragraph introducing Rochelle Banta, Delta Sigma Phi's Queen candidate.

The way the letter was worded gave me the impression that the *Rose Thorn* was negligent in the matter. However, as editor of the paper, I know that the truth is slightly different.

The paragraph in question was allegedly turned in on time to Joe Hargis, who works for Rose-Hulman in the public relations department. Besides handling the Queen candidates, Hargis is also responsible for sports information at Rose. Not just for the *Thorn*, but for all publications that are interested in Rose-Hulman. This is a full-time job, and one that Hargis does quite well. (We at the *Thorn* appreciate the articles we receive from him every week.)

According to Hargis and our advisor, Dave Piker, Delta Sigma Phi was quite upset by the fact that a "No Information Available" cutline was run under their candidate. They were so upset that a representative came in to discuss the matter. That representative told Hargis that the information had been left on Hargis' desk last Wednesday (September 24).

Notice that the paragraph was allegedly "left." It was not handed to Hargis. One would think that if the paragraph were so important it would be hand delivered to Hargis himself, or that Delta Sig would at least call Hargis back later to confirm delivery.

The point I am trying to make is that we at the *Thorn* and those in the public relations office are extremely busy and do not have the time to track down every bit of information that was allegedly turned in. Not only do we not have the time, but it is not our responsibility. If you really want something to be published, turn it in in person. If you would like to confirm the receipt of material, give us a call on Monday night after 6:30 p.m. I'll be glad to check our mail to see if we received the story.

(Note: This editorial was written without any pressure from the public relations department. This editorial was written to present the facts on the issue and clear the name of the *Rose Thorn*.)

SAB
SPOTLIGHT

by John Thaler

by David Strelow

In the SAB spotlight this week is Jon Reick. Jon has worked very hard to help put on the Homecoming Concert tomorrow night. In addition to providing articles about the concert for local media, he has been in charge of all aspects of ticket sales for the show. These two items demonstrate his outstanding contribution to the Student Activities Board. Congratulations to Jon for his super

effort!

Do not forget that tomorrow night, Oct. 4, at 8:30 p.m., the homecoming concert will take place in the Shook Fieldhouse. The show, featuring Taylor Mason and Chicago City Limits, will be a comedy event no one will want to miss. A few good seats remain, but you better hurry because they are going fast. The cost is \$6 for reserved seating and \$5 for general admission.

THORN STAFF

The *Rose Thorn* is published weekly at Rose-Hulman Institute of Technology, Box 193, 5500 Wabash Ave., Terre Haute, IN 47803. Phone 812 877-1511 ext. 255.

Free to students and by subscription at \$7.50 per year.

Is there band after high school?

by Keith Collier
and Tom Maicher

If you play an instrument or just like to listen, there is a campus organization for you — The Rose Bands. With over 60 active members, the band is a very dynamic part of the Rose-Hulman campus.

Pep Band

The principal group during the first two athletic seasons is the Pep Band, of course. This group plays at all home football and basketball games. There are no auditions for Pep Band; it is strictly a "come as you are" group. The Pep Band is intended to be fun for everyone. To make the games more entertaining, features such as "The Weekly Band Gimmick", the Unknown Band, and Band Door Prizes are common. The band has even been known to order anchovy pizza for the opposing team's coach during the game.

The Pep Band normally practices every Monday and/or Friday at 4:30 p.m. in the Band room, which is located behind the stage in the Moench Auditorium. Everyone is welcome. But the Rose bands are more than just the noise-makers at the home football and basketball games. We also support several groups that play a variety of music for many occasions.

Jazz Band

One major group we support is

the Rose Jazz Band. The Jazz Band plays "real" jazz music and gives several concerts throughout the year on campus, at the Woods, and in town. The group is a highly polished set of about 18 musicians who practice on Tuesday and Thursday nights. Auditions are required for membership.

To change the pace, the Jazz Band also performs as a dance band. With songs ranging from the Big Band Era to the present, the band appears at fund raisers, dinners and the like. This group provides added exposure to the

band and good public relations for the school.

Ensembles

Besides being involved with the Pep Band and/or Jazz Band, many band members form small ensembles for on-campus dinners, parties, drama club productions, parades, Springfest and graduation. The involvement of the Band in all these activities makes it a very important part of the Rose-Hulman community.

A look at R.E.M.'s 'Swan Swan H'

by Brian Evans

(The following is the second part of a three-part article on R.E.M.'s latest release, *Life's Rich Pageant*.)

The two most serious and somber songs on R.E.M.'s latest release are "Cuyahoga" and "Swan Swan H." Although both songs deal with historical events which still affect the present day, the lyrics of "Swan Swan H" are perhaps more concrete in conveying Stipe's message.

The speaker in the song is a person from the present day who is observing the Civil War, the latter being evident from the historical references. According to the poem, the speaker has often thought about the Civil War, being overcome with pain and anger "ninety" of the "hundred" times he has pondered it.

Instead of relying on weighty allusions and abstract images, the speaker relies on contrast. The opening line sets up the first contrast. The peaceful image invoked with "Swan swan hummingbird" clashes with the images of war dominating the rest of the song.

The first verse is set in Civil War times and has three different speakers. The main speaker sarcastically observes a peaceful scene in the first line, whereas the second line characterizes the response of blacks to emancipation. In the third line, Southerners collectively reflect on their actions which led to the Civil War. The main speaker returns in the fourth line with an

observation of Christ's death. Although this does not seem to fit with the rest of the verse, it was Christ's death which indirectly provided rationalization for slavery. That is, in some way, Christ's death inspired the New Testament which the Southerners interpreted to support and ordain slavery. Of course, today most people disagree with this interpretation.

Although the speaker utilizes contrast, he relies on impressionistic images to convey the atrocities of war. In the third verse, the main speaker implies that the Southern commanders were willing to sacrifice their men for their cause, even to the point of financing their death ("Hey captain, don't you want to buy...").

Besides criticizing the Confederates, the speaker admonishes the Union soldiers for celebrating with "a pistol high" and a "cup of rye." "Rye" implies that the speaker is referring to the Northern side, since rye is a popular drink in the Northeast.

The fifth and final verse begins with three original lines and then rehashes previous lines in a different order. These three original lines relate a death toll from a battle and rhetorically ask the listener to tell the captain's mother that the captain was responsible for the 18 who died.

Overall, this somber song reflects the pain that many Southerners feel whenever they see that Americans have not learned from the Civil War, thereby making the sacrifice of an entire region in vain.

Swan Swan hummingbird hoorah
We are all free now
What noisy cats are we
Growing dark he bore his cross

Swan swan hummingbird hoorah
We are all free now
Long low time ago
People talk to me

Johnny Reb,
What is the price of pants?
Forty a piece or
Three for one dollar
Hey captain,
Don't you want to buy some
Bone chains and toothpicks
Night wings or hair chains
Here's your wooden Greenbacks
Sing; wooden beams and
Ducktails sweep

I struck that picture ninety
times; I walked that path a
Hundred nights
A long low time ago
People talk to me
A pistol high, cup of rye
The whiskey is water
The water is wine
Marching fee, Johnny Reb

Homecoming Queen Candidates

1986 Homecoming Queen Finalists

In today's centerspread we have the five women who made it to the finals in the 1986 Rose-Hulman Homecoming Queen campaign. Yesterday, students voted for the woman they would like to reign over the homecoming festivities for the weekend.

Tonight, at 8:30, the winner of yesterday's election will be announced during the pep rally being held in the fieldhouse.

The queen, and her court, will be reintroduced tomorrow when Rose takes on Olivet at 1:30 p.m. The 3-1 Engineers will be trying to avenge the 23-17 loss they suffered when the teams last met in 1979. Olivet will be bringing a 2-1 record into the game.

Vicki Vonderheit

Representing the commuters as their 1986 Rose-Hulman Homecoming Queen candidate is Miss Vicki Vonderheit.

Vicki, a sophomore at Indiana State University majoring in marketing, is from Jasper, Indiana. She is a member of the Sycamore Showcase Dancers; Vice-President of Erickson Hall; a little "Sweetheart" of Phi Kappa Psi; a member of the Junior Union Board and one of the homecoming chairmen for ISU Homecoming. Her interests include participating in campus and church activities and meeting new people. Among her hobbies are playing golf, dancing, shopping and traveling.

Jill Harris

Jill Harris, of Ladoga, Indiana, has been selected to represent the men of Lambda Chi Alpha as their 1986-87 Homecoming Queen candidate.

Jill is presently a junior at Indiana State University. She is a Radio/TV/Film major and plans to enter a career in news reporting. Jill is a three-year member of the ISU Sparkettes and was a member of the Theta Chi tandem bike race team last spring. Jill also appears as Miss November in the 1986-87 Lambda Chi Alpha calendar.

Jill's interests include horseback riding, dancing and meeting new people.

Homecoming Queen Candidates

Marie Schwartz

Marie, from Indianapolis, is a senior at Indiana State University majoring in Music Education. She is currently the Assistant Director of Jones Hall, a member of Blue Key Honor Fraternity, Mortar Board, Alpha Phi Women's Fraternity and Music Educator's National Conference. Some of Marie's hobbies include weight training, jogging, camping, traveling, singing, painting, dancing and collecting bizarre sunglasses. Her career goals include getting a master's degree in either Educational Administration or College Student Personnel so that she can obtain administrative positions at both the secondary and college educational levels.

Cathy Rose

Cathy Carol Rose is a 21-year-old senior at Indiana State University, where she is majoring in Psychology with a minor in Sociology. She plans to obtain her master's degree in Industrial Psychology at the University of Illinois. Cathy was a 1985 Indiana State Homecoming representative and the 1985 Vigo County Fair Queen. She was the Pi Kappa Alpha Dream Girl for 1985, the Pi Kappa Alpha National Covergirl, and is also the 1986 Lambda Chi Alpha — Rose-Hulman calendar girl for the month of October. Cathy spends her free time skiing, dancing and playing softball. She enjoys traveling, meeting people and modeling.

Rochelle Banta

Rochelle is a sophomore at Indiana State University studying pre-veterinary medicine. She is a resident assistant in Lincoln Quad and enjoys reading and writing poetry. Rochelle also likes to participate in intramural sports and enjoys always being on the go.

National

National campus housing shortage

(CPS) — Gary Anderson, a pre-med freshman at Notre Dame, has started his college career living with three other students in a study lounge "small enough for just one, really."

Anderson, who gamely adds, "it's not that bad," is not the only college student being wedged into study lounges, small dorm spaces, single dorm rooms and other nooks and crannies this fall as scores of campuses nationwide suffer from an unexpected, though probably temporary, on-campus housing shortage again.

The culprit, they say is an anticipated flood of new freshmen.

So many new freshmen registered at Emory University in Atlanta, for example, that administrators offered upperclassmen \$1,000 or a luxury off-campus apartment if they agreed to move out of the dorms.

Duke, Alabama, Florida, Cal-Davis and, according to one national campus housing official, "the great majority" of colleges across the country are running out of room to house students on-campus this fall.

It wasn't supposed to happen at all, says James Grubb, president of the Association of College and University Housing Officers (ACUHO).

"We all looked at shrinking enrollments through the 1980s and nineties," he says. Colleges didn't buy or build new dorms because "housing was expected to stay steady or decline during that period."

Grubb feels colleges simply have misjudged enrollment trends, which were supposed to head downward because there are fewer 18-year-olds in the population.

College enrollment did fall two percent last year, a College Board census released last week showed, but it has been steady through the decade.

Grubb's not sure why some schools have stayed so crowded. "Although colleges are actively marketing themselves, I don't think that in itself would explain the increases in housing demands."

Freshmen may gravitate toward dorms for social reasons. "Students who are new to the community have no sense of belonging, no friends yet," says Alabama housing chief Tom Strong. Dorms offer easy ways to develop them.

There are money reasons too. "I wouldn't make a blanket

statement that dorm living is cheaper," Grubb says "but it is still a fairly economical way to live and eat while you're in school."

Not all college dorms, of course, are overcrowded. The University of Texas at El Paso closed one of its two dorm towers this fall.

"We would need about 100 more students to reopen the tower," says housing director Becky Baker, who explains UTEP's large number of commuter students has probably muted demand for dorm rooms on campus.

Grubb is "surprised" to hear of UTEP's decision at a time when a number of colleges, finally tired of the dorm shortages that have become a fixture of every fall term, are debating building new dorms.

At Florida, housing Director James Grimm thinks there's "a 50/50 chance" UF will build a new dorm after 10 long years of overcrowding.

"Right now we've got an overflow of 400," he says "For the first time, we've had to put students up in the local Holiday Inn."

Grimm has "been asking for a new building for ten years now, and the answer I get is, 'If you can afford it at this bond interest rate, fine.' Now that the interest rate is coming back down again, I've renewed my request again."

Cal-Davis recently bought four nearby buildings, remodeled them as dorms and created space for 1,224 more on-campus students.

Yet Grimm cautions that creating more on-campus housing can alienate off-campus landlords who want to rent to students.

Financial aid and independent students

Financially independent college students, who are eligible for more federal aid than students who still get money help from their parents generally deserve the extra aid they get, a report released last week by the Southern Association of Student Financial Aid Administrators (SASFAA) says.

At the same time, a congressional committee approved a raft of changes in the way students can qualify for aid as independent students.

The changes, one source says, will cause "an incredible amount of confusion" among students.

They seem mostly "an attempt to wipe out the perception that the federal student aid system is being abused," says SASFAA co-author Stuart Bethune, also an aid official at North Carolina at Chapel Hill.

Last year, U.S. Secretary of Education William Bennett charged many students are in fact abusing the system by claiming they support themselves when, in reality, they are being supported by their parents.

To remedy the problem, the administration has tightened the rules under which students can qualify for independent student aid checks.

But the SASFAA "found little willful manipulation of the system," Bethune says.

"Independent students getting financial aid rely overwhelmingly on self help" to finance their educations, he says.

"What our report suggests is that independent students do not lie. We asked (the 2,000 student sampling) if, in order to qualify for funds, you had to misrepresent your relationship with your parents, would you?" Bethune recalls.

"Only 2.6 percent indicated that would apply. So, 97.4 percent had not (and would not)

misreported their relationship."

Bennett charged that 13,000 students whose parents earned \$100,000 a year were receiving federal student aid.

But the National Association of Independent Colleges and Universities (NAICU) asked Bennett to retract his statement, saying its own study of the problem turned up only one such student, who qualified for the aid before aid eligibility rules were tightened.

Such "independent" students' status, however, was further confused last week when a congressional conference committee, as part of the new Higher Education Reauthorization Act, again changed the procedures for establishing which students are fiscally self-sufficient.

No one is sure just what the changes will mean.

Under them, students "may be better off filing as dependents," says Steven Brooks, dean of academic services at Louisburg College in North Carolina.

"It's too early to tell whether or not it will be harder to get aid," he adds. "I suppose some new hurdles have been setup (by the committee's action), but I hope some have been lowered as well."

Bethune notes that "some students who were once classified as dependents may qualify as independents. Some independents may have to be dependent students now."

One change, Bethune says, will let campus aid directors consider more "special cases" in determining who can qualify for aid as independent students.

Congress also upped the minimum income for independent students, as well as raising the minimum age from 22 to 24-years old. Other definition changes include sections on veterans, graduate students, professional students, married or single with dependents. Any other case will require documentation showing unusual circumstances.

"The immediate result for independent students is that all of this must be passed (as part of the Higher Reauthorization Act) by Oct. 1 of this year," says Kathy Ozer, lobbyist for the United States Student Association.

Financial aid forms normally sent to students now for Fall, 1987 may be late, Ozer warns, blaming the delay on "an incredible amount of confusion" over who will qualify and who won't.

Sports

Engineers Maul Panthers

by Rick Radzville

The Fighting Engineers thoroughly dominated visiting Principia 33-0. After Rose established itself early, especially its defense, the game quickly became an error fest as the two teams combined for 25 penalties totalling 242 yards.

The defense looked aggressive, spending lots of time in the Panther's backfield. They also intercepted two passes and recovered two of the three Principia fumbles. Rose safety Don Hurf intercepted a pass at the visitor's 22 that set up the home team's first score in the first quarter. Later in the first, defensive end Brett Starr slammed into Principia quarterback Chris Bania and knocked the ball loose, which nose guard Chris Szaz promptly recovered. Fullback William Sears strolled into the end zone three seconds later for a touchdown, and a two-point conversion from Duff to Bannister made it 14-0.

In the second quarter, special team's player Kirk Dawson fell on a fumbled punt on the Rose 48. The Engineers then drove to another touchdown, with most of their yardage coming on a

34-yard pass from Duff to Dan Lemons. John Collett then plunged in from the two-yard line for six more points. Later in the half, Rose put together another touchdown drive covering 59 yards. Seven of the eight plays were passes and six were completions. Jason Duff had an outstanding day, completing 12 of 25 passes for 121 yards and one touchdown.

Rose's last score came on a punt return by Tim Rauch from the Principia 38. He drew the defense towards him, then circled left and found a wall of blockers down the sideline on a waltz to the end zone. The luckless Panthers could do nothing right and the Engineers no wrong, as evidenced in the third quarter, when the visitors went from their 11 to their one on three plays against Rose's second string defense.

Things are looking up for Rose. The Engineers have won two in a row and seem to have conquered their bad habit of turning the ball over. Just in time, too, for the emotional homecoming game against the Olivet Comets on Saturday.

Senior Tim Rauch enters the end zone untouched after a 38-yard punt return.

Soccer falls on hard times

by Mark Dolan

After winning its first two games of the season, the Rose soccer team fell on hard times last week as they failed to score in their three games. It began two Saturdays ago when Rose lost their first game of the season 5-0 to Earlham College. On Wednesday, it was DePauw, rated fourth in Division III, who beat Rose 3-0, and this Saturday they were shut 1-0 by Millikin.

At Earlham, a College Athletic Conference opponent, Rose could never get in the game. One of the troubles Rose encountered was a very soggy playing field. The field caused some missed chances, and after that, the Engineers could not get on track.

At home, Rose squared off against one of its tougher opponents, DePauw. The first half was very physical as can be

attested by Mike Radomsky, who played sparring in the half, because while driving toward the goal his legs were cut out from under him and he landed on his shoulder. Though the first half was physical, Rose played DePauw to a stand still until minutes before the first half when DePauw was awarded a penalty kick, which converted. At half time, with the score 1-0, the Rose players were tired since the ball was always on their side of the field.

In the second half, with DePauw substituting constantly, Rose could not keep up as DePauw scored two more goals. The score would have been greater if it was not for the brilliant play of goalie Paul Price and defenders Mark Tau and Shawn Perkins.

Duffers tuning up

by Steve Ufheil

The Engineer golf team opened its season against Franklin College last week. The low man for Rose was Dennis Aldridge, who shot a 79. Other scores for Rose included Mendoza — 83, Getter — 84, Kennedy — 81, Lesniak — 86, and Ewton — 94. Kennedy is a Sophomore transfer student while Lesniak and Ewton are both Freshmen.

On Saturday September 27, Rose traveled to Crawfordsville to compete in a match with Wabash College. Again, Aldridge was low man with a score of 81. The Engineers finished the tournament in sixth place. One standout in the match was Mark Bower. He hit a 100 foot putt on the first hole for a Birdie. The shot was perhaps the longest in Rose history.

Dennis Aldridge attempts a putt at the Hulman Links Golf Course.

Rose hopes to douse Comets

THE GAME: Olivet College (Comets), Olivet, Mich., vs. Rose-Hulman Institute of Technology.

TIME, DATE AND PLACE: 1:30 p.m., Oct. 4, Phil Brown Field.

ON THE AIR: Rose-Hulman radio station WMHD-FM, 90.5, will broadcast Saturday's game beginning at 1:20 p.m.

RECORDS: Rose-Hulman is 3-1 overall and 0-0 in the College Athletic Conference (CAC).

Olivet College is 2-1 overall and in the Michigan Intercollegiate Athletic Association (MIAA).

COACHES: Rose-Hulman's Scott Duncan is 3-1 lifetime and at Rose-Hulman.

Olivet's Glen Stevenson is 66-61-1 lifetime and 8-32 at Olivet College in his fifth season.

SCENE SETTER: The Engineers are coming off a 33-0 win over Principia College. Rose-Hulman limited the Panthers to 34 yards rushing in last Saturday's win (Sept. 27) at Phil Brown Field. Olivet College lost for the first time this season last Saturday at home to Denison University, 0-35. The Comets were 0-9 last season (0-5 in the MIAA). Rose-Hulman finished the 1985 season with a 4-5 record and tied for third place in the CAC with a 2-2 mark.

ROSE-HULMAN NOTES: Rose-Hulman continues to defense well against the rush, limiting opponents to just 49.3 yards rushing per game this season. The Engineer defense has racked up 13 quarterback sacks in four games. Senior nose-guard Chris Szaz leads Rose-Hulman in the sack department with four. Freshman defensive end Brett Starr had 10 tackles vs. Principia (six solos and four assists) to give him a two-game total of 18. He replaced senior co-captain Paul Romanetz in the starting lineup. Romanetz

injured his knee against Hanover and is expected to miss the rest of the season. Senior fullback William Sears scored his fifth touchdown of the season last Saturday against Principia. He leads the team in scoring with 30 points.

SERIES RECORD: Saturday's game will mark the third meeting on the gridiron between Rose-Hulman and Olivet College. Each team has won one game. The Engineers defeated the Comets, 22-21, in 1978. The following season, Olivet beat Rose-Hulman by a 23-17 count.

ROSE-HULMAN LAST WEEK: Principia turnovers led to Rose-Hulman's first three touchdowns last Saturday. The first touchdown - a five-yard run by sophomore tailback Tony Broadnax - came five plays after senior defensive back Don Hirt grabbed his fourth interception of the season. Senior nose-guard Chris Szaz recovered a Principia fumble on the Panther's 2-yard line to set up Rose-Hulman's second touchdown, a two-yard run by William Sears. Both scores came in the first quarter of play. Early in the second quarter, junior Kirk Dawson recovered a fumbled punt return by Principia and six plays later junior fullback John Collett scored from two yards out to give the Engineers a 20-0 lead. Rose-Hulman's other two touchdowns came from senior wide receiver Tim Rauch. Rauch scored on a six-yard pass from sophomore quarterback Jason Duff and he returned a punt 38 yards for a touchdown.

COACH DUNCAN ON THE ENGINEERS: "I think we're progressing very well. Our players have a lot of enthusiasm and a lot of good things have happened to us so far. We've played hard in every game and we've been able to walk off the field with pride. That's all we can ask

of the players."

A LOOK AT OLIVET COLLEGE: Olivet is a much improved team from a year ago. The Comets, 0-9 last season, won their first two games of the season (24-0 over Manchester College and 12-3 over the University of Chicago) before losing last Saturday to powerful Denison University, 0-35. Olivet is led offensively by senior quarterback Mark Snyder, who averages about 100 yards passing per game. Defensively, the Comets had not allowed a touchdown prior to the Denison game. Leading the Comet defense is senior linebacker Clint Alexander, who has 49 tackles and two interceptions this season. Freshman cornerback Tim Kamego has two interceptions, one he returned 57 yards for a touchdown. Olivet has an excellent punter in senior Pat Koepfer, who is averaging over 43 yards per punt this season. Koepfer, a two-time all conference punter, is among the NCAA Division III's top punters this season.

COACH DUNCAN ON THE OPPONENTS: "Olivet is a good football team and we'll have to really prepare well for them. They do a lot of things on offense and defense that makes you respect them. Their personnel will make it tough for us to execute some of our schemes."

WHAT HAPPENED TO OPPONENTS LAST WEEK: MacMurray College (2-2) 28, Eureka College 17; Georgetown College 31, Hanover College 18 (2-1); Rhodes College (2-1) 14; Washington University 11 (0-3); Denison University 35, Olivet College 0 (2-1); Anderson College 25, Taylor University 21 (2-1); Sewanee (1-2) 36, Earlham College 13 (0-3); Centre College (3-0) 7, Washington & Lee 6.

Harriers show team strength

by Steve Ufheil

The Rose Harriers have been busy in the last two weeks, traveling to Taylor University on September 20, to Purdue on September 26, and to Danville on September 27.

At Taylor, the Engineers finished sixth out of 11 teams and first among division III schools. Purdue won the meet, followed by Butler, both division I schools. Anderson College was third and Spring Arbor was fourth. Taylor and Rose rounded out the top six. Junior Mark Tebbe was the top man for Rose, placing 22nd in the meet. Senior Kurt Kelso finished 26th and freshman Tony Kochert finished

in 37th place. All three men had good days in a meet marked by a tough course and good competition.

Division I schools dominated the Purdue Invitational on September 26 as Indiana State and Purdue took first and second respectively. Rose finished third, followed by DePauw and Valparaiso. Roger Hruskovich was the top man for Rose with a time of 26:29. Mark Tebbe was second for the Engineers with a time of 26:52. Other times for Rose were Kelso - 27:05, freshman Jason Lueking - 27:40, junior Kenny Roberts - 27:41, Kochert - 27:45, D.R. Foley - 28:08 and Bob Jacobs - 28:12. The meet was the

best overall team performance of the year, which was surprising considering the meet was run in the rain.

The Harriers finished fifth out of 11 teams at Danville.

Freshman Frank Visingardi was the top finisher for Rose, placing 19th with a time of 28:30. Steve Mericle finished 28th, followed by Carl Troike (34), Jerry Lyons (36), Brian Glover (38), Reece (45), Ed Flake (47), and Dan Braker (55). The Engineers are in action again on Saturday as they travel to Hanover College for the Hanover College Invitational.

Humor

Slightly Off Campus

POLICE STOPPED FOUR BUSES FULL OF U. OF NEBRASKA STUDENTS ON their way to a Phi Kappa Psi off-campus party and handed out 124 tickets on alcohol-related charges last week.

Phi Kappa Psi had spent an estimated \$1,200 on food and alcohol for the off-campus party that ultimately never was held.

ONLY KENT STATE STUDENTS CAN ATTEND KENT STATE EVENTS from now on, KSU President Michael Schwartz announced last week.

Students and faculty members can bring only one non-KSU guest to campus sponsored events, which must end by 1 a.m. and can no longer be advertised in noncampus media.

Schwartz said the new rule is necessary to prevent reoccurrences of a Sept. 7 KSU fraternity fight in which eight men — none of them KSU students — were hurt.

YALE OFFICIALS UNVEILED NEW FIRE EXTINGUISHERS TO TRY TO DOUSE campus pranksters. Campus Fire Marshall Phillip Sherman said his staffers spent inordinate amounts of time maintaining fire extinguishers blasted off by student pranksters last year. By switching from liquid to powdered ammonium phosphate extinguishers, Sherman hopes to save maintenance time and money.

Pranksters, however, don't seem to care what's in the extinguishers. "We've already had many (prank) discharges this term," Sherman noted.

NATIONAL UNIVERSITY SAYS PRETTY GIRLS ON ITS CATALOGUE COVERS SELL THE UNIVERSITY BETTER THAN MALE MODELS.

Although 70 percent of the Vista, Ca. campus population is male, enrollment marketing chief Ibbie White says the school has much better student recruiting luck when it puts a woman on the catalogue's cover.

Top 10 Alumni Questions

1. Where's the party?
2. Why haven't we gone coed yet?
3. When was Moench Hall fire-bombed?
4. Why aren't freshmen wearing their beanies?
5. Can I get a Masters degree here?
6. Who is Skinner?
7. How do you pronounce Crapo?
8. What time is it (it's cold out here)?
9. What's a Pike?
10. Have Woodsies changed?

Top 10 Reasons to Donate Blood

1. Want a free t-shirt
2. Enjoy having needles stuck in my arm
3. Willing to give blood to see the nurses
4. Good excuse to cut classes
5. Post-donation cookies make it worthwhile
6. Nothing else to do on a Wednesday
7. Everyone else is donating
8. Physical threats from my friends
9. It's the thing to do
10. Chicks feel sympathetic for you if you give
